Buy Aussie music for your business or project

Boost customer loyalty and support our local music community with an all-Australian playlist tailored to suit your business.

Buying local music has never been more important. Ongoing COVID-19 restrictions have been crippling for our independent Aussie musicians, who will continue to feel the devastating effects well into 2022.

Buy one (or more!) of our business playlists by 30 November for the introductory offer of 65% off the full price!

Approachable Members Of Your Local Community

Business playlists

Playing music for your customers or staff? Buy local with our all-Aussie playlists and make your brand sing (pardon the pun).

Our playlists are curated to fit all business types (hospo, gyms, retail, beauty...) - we'll help you create a vibe that speaks directly to your tribe.

Find your playlist

Sync licensing

Music supervisors - discover high quality music by Aussie artists for your film, TV, brand, video or gaming project.

Tracks for sync licensing are all cleared, mastered, have detailed metadata and are available for exclusive licence.

Browse single tracks

Walrus and the Carpenter

Independent musicians and composers, join us.

- Increase your income
- License on your own terms
- Explore new opportunities
- Business planning for your future

We help you build a sustainable music career by exploring new revenue streams.

ARTISTS PAGE

INDEPENDENT ARTISTS

Earn money without lifting a finger

Looking for new ways to earn income from the music you've created and recorded? We've got your back.

By adding your music to our business playlists, you can earn money for jam. Or, if you have tracks already mastered, vocals/instrumentals, stems or even voice work, you can continue making bank with sync licensing.

So while you focus on the road ahead, we'll keep your passive income pumping.

Increase exposure

Find new audiences outside of your fanbase, as your music is heard through business playlists and film and media projects here and across the globe.

Build new revenue streams

Earn money from the music you've already created. Whether brand new or recorded years ago, it could find a home on our playlists. Plus, there's the added bonus of growing your APRA AMCOS/PPCA income.

Maintain control of your creative works

You choose how your music is used. You'll approve all sync licence proposals and can opt in or out of our business playlists.

Minimal effort

The beauty of passive income is that you earn money from the work you've already done. Registering is easy, just fill out the form below, we'll put a few things in place, then sit back and enjoy the income.

If you are an independent Australian musician or group and you're interested in joining the Jazz Cowboy Productions music community, we'd love to hear from you! Just send us a few details and we'll get back to you as soon as possible.

We'd love to help you generate some additional income!

BUSINESS PLAYLISTS PAGE

Music for your business

It's super easy. Simply select a playlist category above, choose the duration, purchase, download and play!

Your customers and staff will love the high-quality background music handpicked to complement your product or service. And you'll get the kudos for supporting our homegrown musicians. Win win!

We all did our best to help Aussie businesses during restrictions.

Now we can continue to support the 'buy local' movement and help our hard-hit musicians shine again.

All playlists are available in ready-to-play .mp3 or .wav file format.

Licence to play in public

Having permission to play music in public or a business setting is a legal requirement under the *Copyright Act (1968)*.

Whichever industry you're in and however you play music, a licence is necessary. Visit [OneMusic](#) for more information.

Did you know: You're not permitted to play streaming services like Spotify in a business setting?

Yep, it's true. Most streaming services are for personal use only and trust us, platforms like Spotify do take action.

Protect your business and do the right thing by our local artists – they need us.

Need help finding the right music for your business or brand?

We hear you and would love to help. Drop us a message with a few details and we can help curate your Australian music soundtrack.
